

ISUZU EUROPE › OEM & IAM BENCHMARK [UK|IL] 2021

QUOTATION NUMBER: OE-1196: Eucon_Isuzu Europe_OEM & IAM benchmark_uk+il_2021_v02

Eucon GmbH
Muenster, 23/07/2021

General overview

Driven by Data. Guided by Experts.

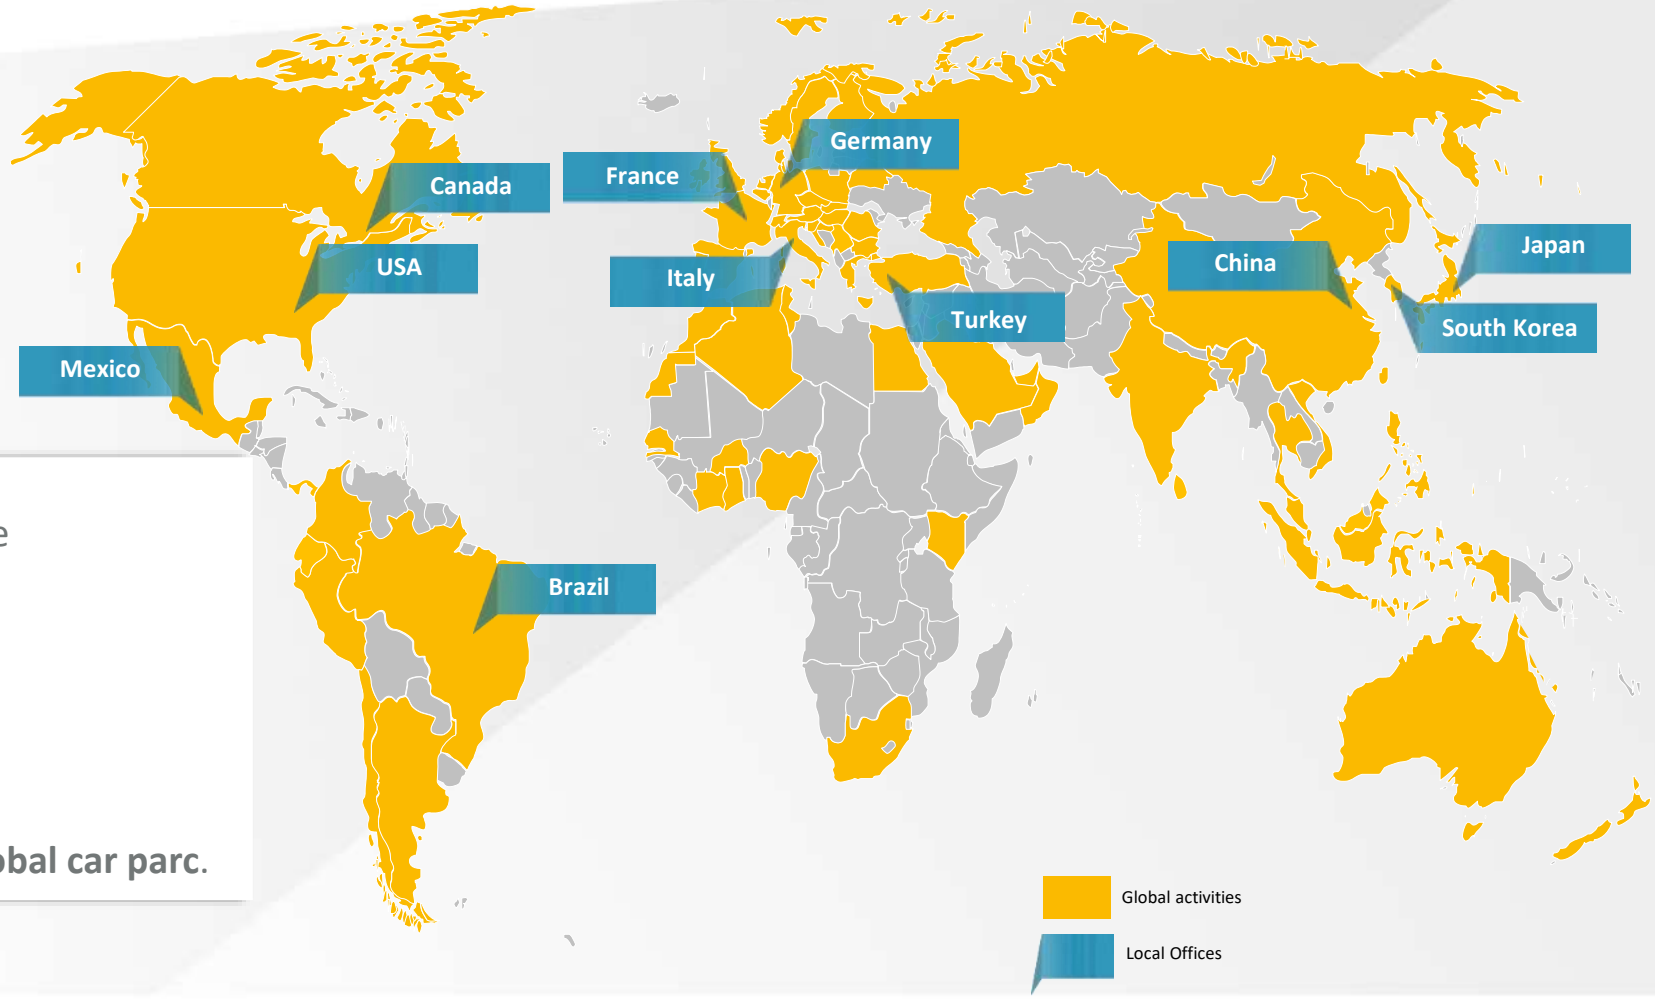

We are a **digital pioneer** for **data and process intelligence.**

For 20 years, we have been combining **market data and expert knowledge** with **modern technologies** to create **intelligent automation solutions.**

The **automotive segment** is the main pillar of today's Eucon group.

A strong partner for data and process intelligence worldwide

Our **400** **experts** worldwide serve around **250** **customers** with data from **>80** **countries**.

This represents **>90** **%** of the **global car parc**.

Vehicle manufacturers and parts suppliers rely on us

Vehicle manufacturers

Automotive parts suppliers

Key questions & challenges you face

Market position

How can we **measure and evaluate** our current spare parts positioning & what is the **optimal market price?**

Parts‘ comparability

What about **competitors** in terms of parts **comparability** and **pricing** in different **distribution channels** & **price levels?**

Competitive classification

Which of our parts are **captive** & how to **utilize** captive positions?

Potentials and risks

For which parts and product groups can **significant price opportunities** be identified? Which potentials and risks are found?

In-depth surveys for focus parts assortments

pricesurveys
market data engine

OPTIMIZED PRICING

Combine IAM and OEM benchmark results to derive your **optimal market-driven list price**

TECHNICAL OVERVIEW

Learn about **technical comparability** of IAM parts to your genuine parts e.g., set/kit building instead of single parts sales

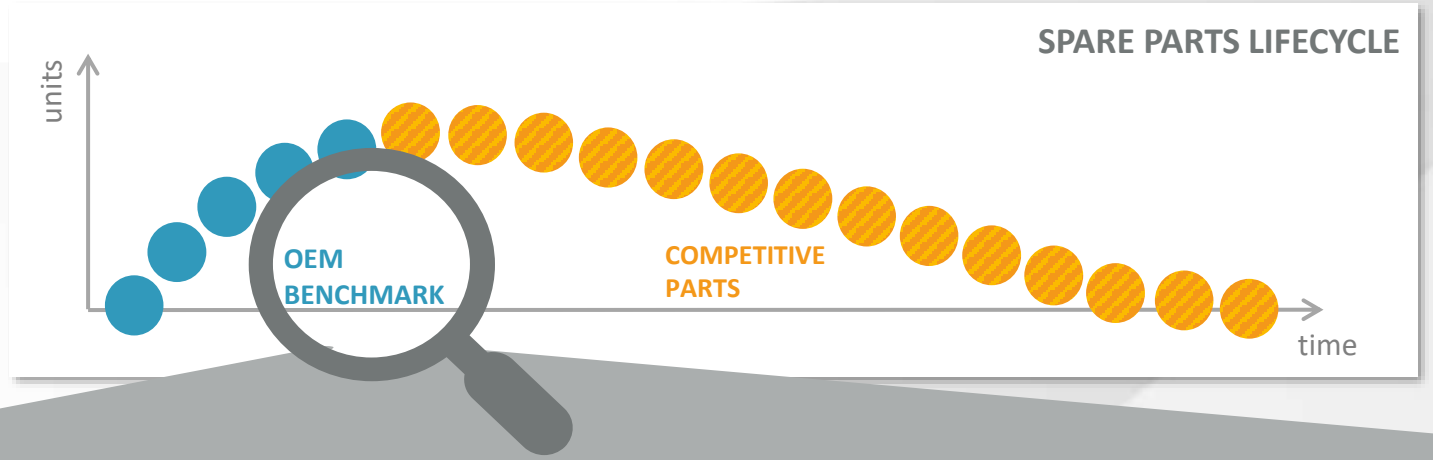

MARKET OVERVIEW

Learn about **market developments, strategies and trends** e.g., dropping sales of mufflers due to the use of stainless-steel

STRATEGIC POSITIONING

Identify **competitive opportunities** and implement your **strategic positioning** on different price levels

OEM Benchmark – Optimal pricing of spare parts for age segment I vehicles

OEM Benchmark – use cases

- Initial pricing for new parts
- Derivations on strategic price positioning of captive parts
- Competitive analysis of insurance-relevant parts (e.g., TCO, wear & tear, repair, crash) or EV-specific parts
- Support of optimal market-driven list price

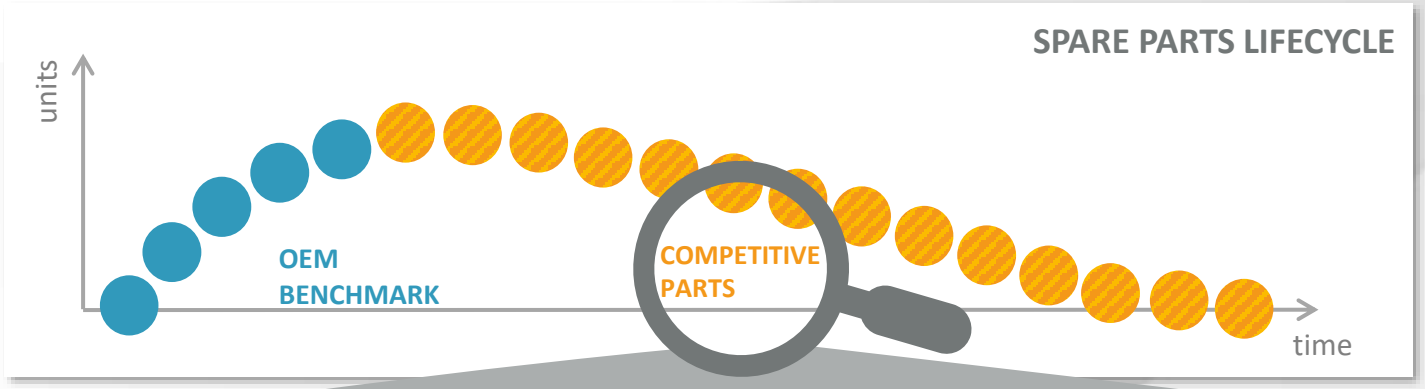

Service & market insights

- Gain market insights regarding your **parts positioning** vs. your **key OEM competitors**
- Receive a **detailed product insight** based on **our cross-referencing process** in addition to **all relevant international market/spare parts price data**

Specific benefits of our PriceSurveys

- Performance of **1:1 cross-referencing** of competitors' part and **assessment of technical parts qualities** and **differences** by skilled Eucon experts
- Detailed view on **competitor environment** for **country-, brand- and product-specific** analysis
- Deep dive into **technical** and **price differences** on **part number level**

IAM Benchmark – Optimal pricing of competitive parts

Service & market insights

- Gain insights with regards to the **IAM price positioning** on **different price levels** in the local aftermarket
- Get a **detailed product insight** based on **our cross-referencing process** and retrieve **all relevant international market/spare parts price data**

Specific benefits of our PriceSurveys

- Learn about **technical comparability** of **IAM parts** to **your genuine parts**
- Use IAM information to **fine-tune your conditions** and your **B2B/over-the-counter price**

IAM Benchmark – use cases

- Analysis of parts/product groups with (high) competition, e.g.
  - Maintenance, wear & tear parts
  - Repair parts
  - Crash/body parts (TCO)
- Competitive analysis of relevant out-of-warranty models

Generic parts price levels: Truck & bus market

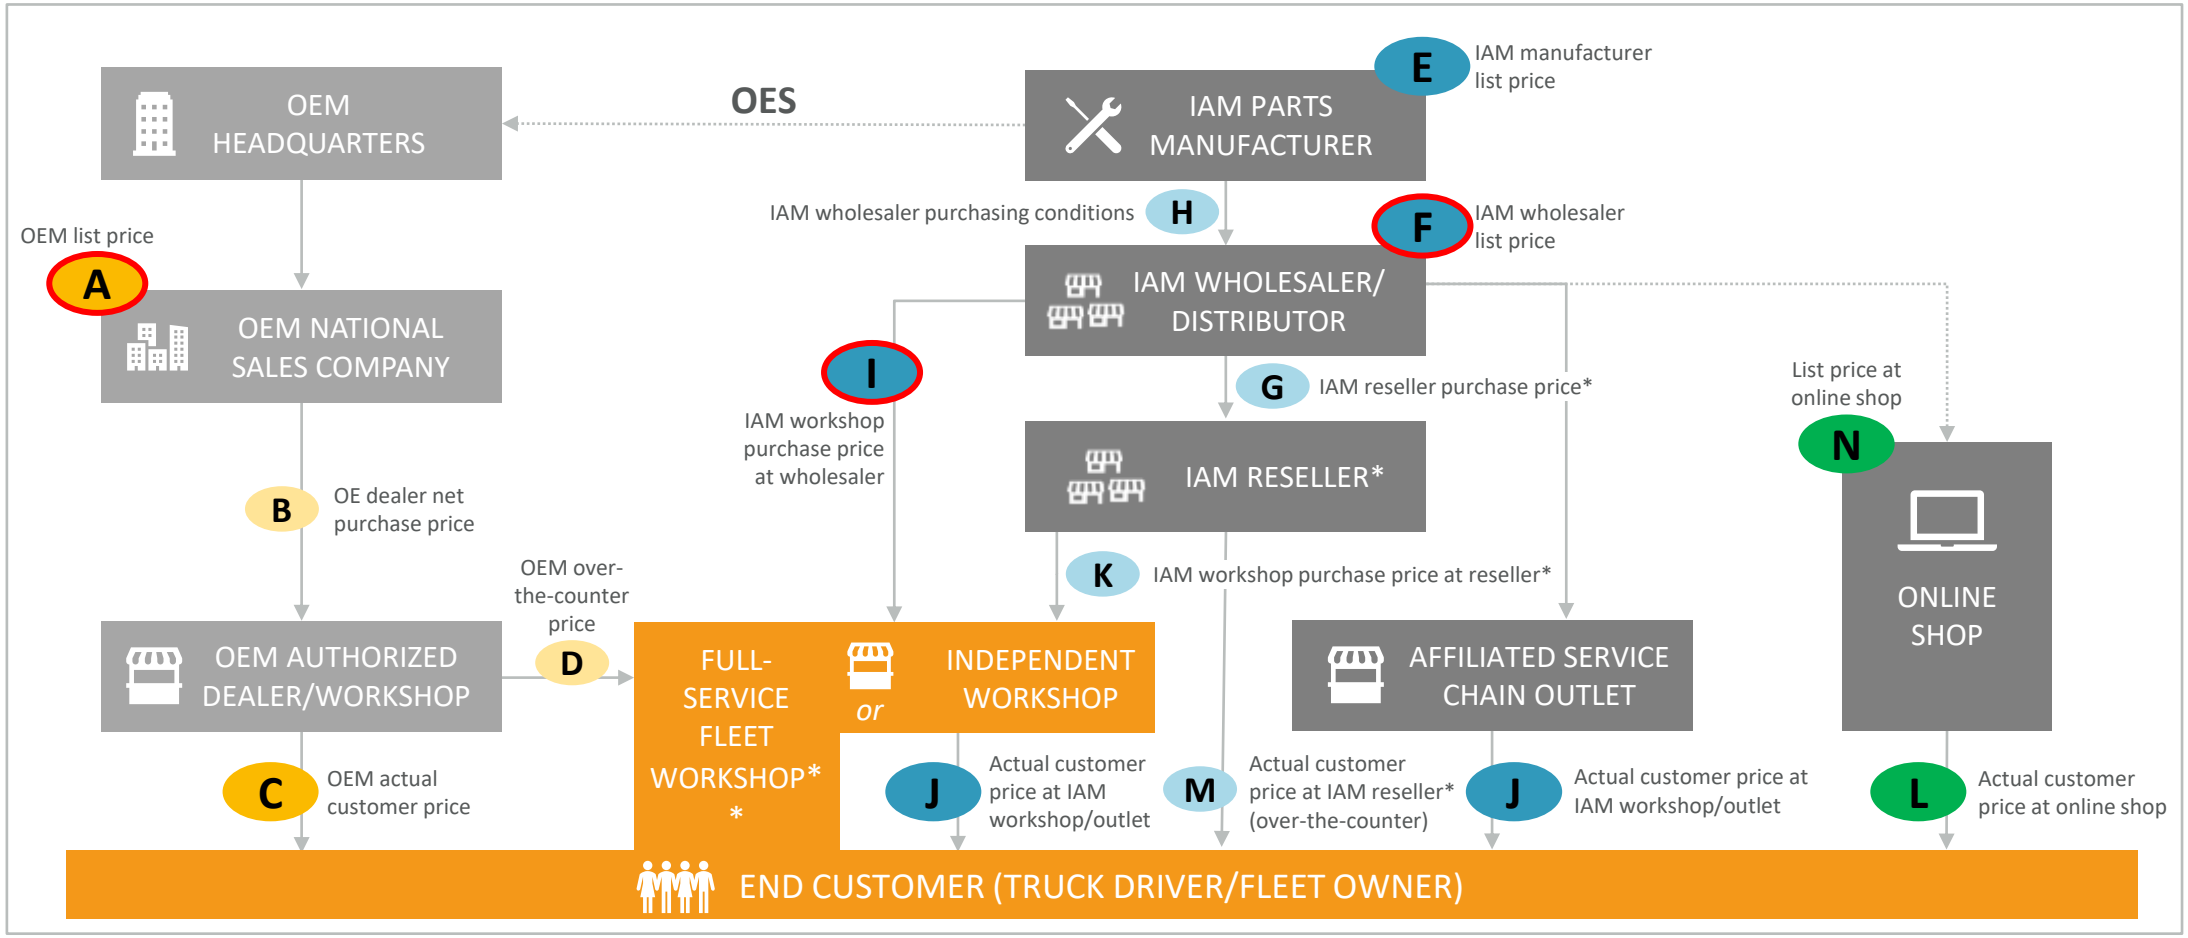

Figure: *Schematic aftermarket diagram and generic price points as survey subjects*

**only relevant for market structures with regional parts traders (depending on country), e.g., Ricambisti in Italy*

*** full-service fleet workshops/independent workshops of comparable size (e.g., servicing/repairing a fleet of 15-20 vehicles) leading to comparable purchasing conditions*

Effective scope of work as basis for this cost indication (1/2)

Requested from ISUZU Europe | OEM

SPECIFICATION OF SERVICE SCOPE BY COUNTRY & MODULE

Module	Country	Client input	Competitor (current Model) / Wholesalers	Result (per country / part no.)
OEM Basic cross-referencing	United Kingdom (UK) Israel (IL)	Parts basket containing **500 ISUZU OEM parts** (100 parts x 5 input models)	**LCV:** Isuzu "D-Max" Model: RG01, RT, TF **HCV:** Isuzu Model: N, F	**Qualified OE cross-referencing** 100 ISUZU parts per model x 6 OEM competitors = 600 References + 25% country specific parts as RHD/LHD parts **= 750 qualified OE cross references** applicable for both countries if same parts baskets
OEM Basic & price data collection	United Kingdom (UK)	Parts basket containing **500 ISUZU OEM parts** (100 parts x 5 input models)	LCV: Isuzu "D-Max" Model: RG01, RT, TF HCV: Isuzu Model: N, F	**LCV** 100 parts x 2 Competitors (Toyota, Ford) x 3 Isuzu models = max. **600 OEM list [A] price information** depending on actual availability of offers. **CV/HCV** 100 parts x 2 Competitors (MB Sprinter, Ford Transit*) for Vans x 1 Isuzu models + 100 parts x 2 Competitors (IVECO, DAF) for CV x 1 Isuzu models = max. **400 OEM list [A] price information** depending on actual availability of offers.
	Israel (IL)	Parts basket containing **500 ISUZU OEM parts** (100 parts x 5 input models)	LCV: Isuzu "D-Max" Model: RG01, RT, TF HCV: Isuzu Model: N, F	**LCV** 100 parts x 2 Competitors (Toyota, Ford) x 3 Isuzu models = max. **600 OEM list [A] price information** depending on actual availability of offers. **CV/HCV** 100 parts x 2 Competitors (MB Sprinter, Ford Transit) for Vans x 1 Isuzu models + 100 parts x 2 Competitors (IVECO, DAF) for CV x 1 Isuzu models = max. **400 OEM list [A] price information** depending on actual availability of offers.

*Due to Corona-crisis feasibility-check pending.

Effective scope of work as basis for this cost indication (2/2)

How we do it – Our proven 4-step approach

1 | PREPARATION

- Kick-off meeting and agreement of project timing
- Definition of competitor set
- Validation/development of parts basket

2 | IAM CROSS-REFERENCING

- Identification and qualification of 1:1 IAM cross-references
- Preparation of request table

3 | FIELD RESEARCH

Collection of IAM price data through local field force

4 | VALIDATION & DELIVERY

- Validation of price data
- Upload into MDE and distribution to stakeholder
- Presentation and discussion of survey results

How we do it – IAM cross-referencing #2

EUCON'S EXPERTISE

PARTS BASKET VALIDATION AND DEVELOPMENT

- ✓ **Validation** of parts basket regarding **IAM relevance and usability** by data editors with long-term workshop experience
- ✓ Upfront **classification** of **part competitiveness** (competitive, less competitive, captive)
- ✓ **Collaborative finalization** of relevant survey parts

IAM CROSS-REFERENCING

- ✓ **Identification** and **qualification** of **1:1 IAM cross-references**
- ✓ **Tool-based qualification** (through internal database, technical documentation and desk research) of IAM cross-references regarding
  - ✓ **Part quality**
  - ✓ **Packing unit content**
  - ✓ **Part type** (new/reman)
- ✓ Several **quality gates** led by four-eyes-principle and automation
- ✓ Preparation of **request table** containing **OEM basic information** and **qualified IAM cross-references**

A **solid basis** for field research is **essential** to receive **reliable** and **comparable price data**

How we do it – Worldwide data sourcing

WORLDWIDE INDUSTRY NETWORK AND CONNECTIONS - (continuously being expanded) to collect parts price data from a wide range of markets/channels

MYSTERY SHOPPING APPROACH - to verify referenced parts quality

ACTIVE WHOLESALE & WORKSHOP EXPERT NETWORK - Qualified and proven local country parts experts

Survey results connected to Market Data Engine

EUCON 4 market data engine

INPUT

EUCON'S EXPERTISE

DATA VALIDATION & INTERPRETATION

- ✓ **Validation** based on **defined pricing ruleset**
- ✓ **Quality assurance** based on prices of comparable countries, common price points in selected countries and historical prices
- ✓ **Validation** of **price outliers** with **country's experts**
- ✓ Upload into MDE

The Study Portal is a closed area with customer-specific data warehouse to upload proprietary survey data. The uploaded data points can be compared and analyzed via connectors to PartsPool® data content or additionally uploaded study data

Your competitive price study in our MDE: Dashboard module

4

market data engine

See all studies globally in one tool and administrate their distribution within the organization

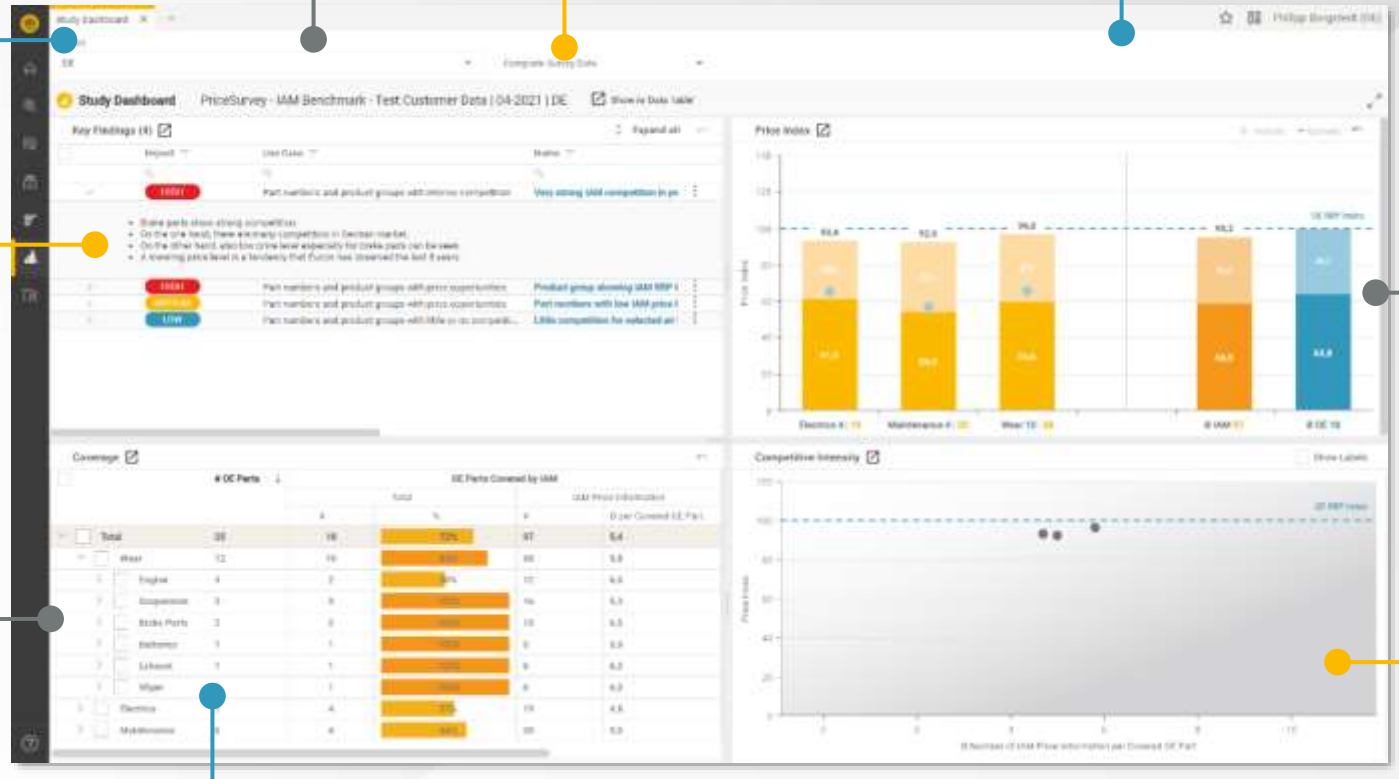

Base data sets: Select Eucon presets or user favorites for ensuring clean data and apple to apple comparison

Save favorites of analyses as study report to distribute the information within the organization

Integration of recent and historic price studies for marketing and pricing measures based on historic data

Eucon predefined study highlights and use cases add value to the data

Download complete study data or detailed analyses in .xlsx for further utilization in your tools

partspool

Data connector: Quick link to full PartsPool® product and price information, e.g.

- Cross-references
- Online prices
- Price history

Selection of view modes

- for management steering
- for data- and statistics-based operational experts' daily business

Take optimal pricing decisions through dynamic analysis along different dimensions, e.g., own product hierarchy, own models, IAM competitors, IAM quality1

Staffing

Our project teams always consist of an internationally experienced project leader and a group of subject-matter-experts as demanded by the actual scope of work.

- **Project Leader**: up to 10 years experience in Automotive market research & analysis projects; responsible for the initiation, planning, execution, controlling, and closing of a Eucon project with the aim of achieving all of the project goals within the given constraints
- **Technical Consultant / Data Editor**: up to 15 years project experience and personal experience on workshop level, e.g. as workshop manager, qualified mechanic or warehousing staff; responsible for all parts data related topics such as parts basket qualification and “apples-to-apples” cross-referencing
- **Data Analyst**: up to 10 years project experience as well as expertise in the field of system application in general and mass data management in particular (e.g. system supported data validation & transformation)
- **Business Analyst**: 5-10 years project experience and excellent skills in data interpretation and visualization; responsible for the processing of raw data survey results and creation of Management Summary documents as well as additional market insights; execution of secondary research
- **Consultant**: up to 10 years project experience and profound Automotive background (from OEM or IAM); responsible for certain market intelligence project modules and management presentations

Example team setup for a basic price survey:

Invest provisions and timing – COMMERCIAL OFFER (1/4)

Quotation number: Eucon_ISUZU Europe_OEM & IAM Benchmark_UK+IL_2021_V02; **valid until: 2021-08-15**

Requested from ISUZU Europe for OEM

Module	Country	Client input	Competitor (current Model)	Result (per country / part no.)	Invest in €
OEM Basic cross-referencing	United Kingdom (UK) Israel (IL)	Parts basket containing **500 ISUZU OEM parts** (100 parts x 5 input models)	**LCV:** Isuzu "D-Max" Model: RG01, RT, TF **HCV:** Isuzu Model: N, F	**Qualified OE cross-referencing** 100 ISUZU parts per model x 6 OEM competitors = 600 References + 25% country specific parts as RHD/LHD parts **= 750 qualified OE cross references** applicable for both countries if same parts baskets	**Included**

Total package: 69.100 EUR

Invest overview, provisions and timing – cost indication

- **Terms of payment:**
  - 30% of the quotation value is due 14 days after the purchase order and receipt of invoice; the remainder is due 14 days after the delivery of the data and study report documents
  - All prices excluding any kind of taxes, e.g. value-added tax (VAT) or withholding tax
  - Please note that in case that ISUZU does not exhaust the max. parts basket and cross-reference volumes as defined in the scope section, the total amount will be invoiced. Same accounts when parts selection for field research does not produce results (=price information) due to non-availability of parts/prices e.g. at IAM wholesalers
- **Provisions:**
  - ISUZU Europe parts basket (n=500 OEM Benchmark / 100 IAM Survey parts), including part number, part description, product group, primary vehicle application, country list price
    - Favored OEM competitors per country and model
  - Access to ISUZU's electronic parts catalogue for the duration of the project
    - Collaborative agreement on final parts baskets and OEM / IAM competitor selection

- **Project timeline & restriction:**
  - Eucon will define the specific project plan and milestones together with ISUZU after receiving the purchase order and provisions
    - For the time being, please consider the following timing parameters:
      - Project duration: approx. 10-13 starting with kick-off call/meeting
      - Earliest project start: 16.08.2021
      - Provisions by ISUZU have to be sent to Eucon project manager latest 2 weeks before kick-off
      - Any delay caused by ISUZU will have a corresponding impact on Eucon's service project timeline (at least: postponing the Eucon delivery dates by the delay, e.g. late provisions)
    - Project language (spoken) is restricted to English or German, language of deliverables & project documentation is English
    - Due to Covid-19, there may be occasional restrictions or delays in some countries - this will be checked in detail at the start of the project. In case of any restrictions, we will provide a suggested solution to be finally agreed within the project team.
    - Eucon terms and conditions applicable for this project
