ITUK-ISZE/ISZJ
PMS parts sales promotion activities

International Parts Business Dept.
Sales Group No.1
8th Apr, 2026

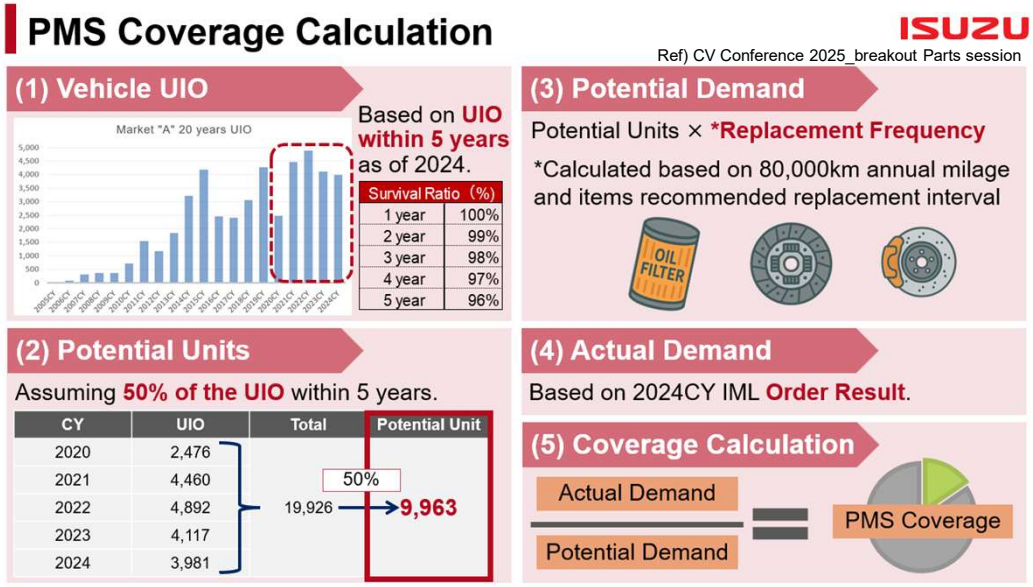

Market Research(PMS parts* sales)

*Periodic Maintenance Service parts(oil/fuel/air filter, clutch, brake)

- ISZE is required OP+20% in FY27, it is essential to plan activities and implement immediately
- ISZJ would like to grasp if we have been able to have parts sales for demand in vehicle life cycle
- At first, it focus on PMS*, which is required for stable vehicle operation

Approach to each customer

- PMS Coverage calculation method is just one possible approach to identify sales potential
- After analysis, it should discuss how to address to market for taking sales potential

【Action】

- To grasp the sales potential and current sales situation

1) Vehicle UIO
2) Potential Units (discuss the ratio depend on market)
3) Potential Demand (discuss the frequency depend on market)
4) Actual Demand
5) Coverage Calculation

- To plan sales promotion activities

Market Research(PMS parts sales)

- It reviews the study based on ITUK providing data and plans the action plan

Process

1) Check VIN for making PMS parts number matrix and target part numbers【(1) vehicle UIO】
2) Build replacement / potential table for calculating cover ratio【(2) Potential Units/(3) Potential Demand】
3) Extract PMS parts sales from ITUK WS data【(4) Actual Demand】
4) Calculate coverage【(5) Coverage Calculation】
5) Discuss effective promotion activities and schedule to implement

update and discussion points today

- ISZJ re-calculated PMS parts cover ratio by ITUK providing data to be more practical study
- Discuss about the target PMS categories and action plan

Kick Off MTG memo / ITUK suggestion

- It should add other active parts instead of Clutch (sales promotion/service contract did not work well / manual TM minor model)
- It would be better focusing on N75, which is regulated, every 6 or 8 weeks the vehicle must go into a garage for a safety event (Goods Vehicle Operator's License)

Market Research(PMS parts sales)

ISUZU

Process

1) Check VIN for making PMS parts number matrix and target part numbers 【(1) vehicle UIO】⇒ CBU master data

Ref) Excel file “CBU Master Data-Appended”

Market Research(PMS parts sales)

ISUZU

Process

4) Calculate coverage 【(5) Coverage Calculation】

Current Sales QTY

2025	QTY	UIO	replacement QTY	potential QTY	cover ratio
OIL FILTER	11,353	12,010	2.50	30,025	38%
FUEL FILTER	18,423	12,010	2.50	30,025	61%
AIR FILTER	3,797	12,010	1.25	15,013	25%
CLUTCH	576	5,659	1.00	5,659	10%
BRAKE	3,981	12,010	1.00	12,010	33%
total	38,130				

Review

It seems to have sales more opportunity in
Oil/Air Filter, Clutch Brake items rather than the other item

Sales up target QTY

2025	QTY	target		QTY	sales up QTY
OIL FILTER	11,353	+1%	OIL FILTER	11,466	113
FUEL FILTER	18,423	+1%	FUEL FILTER	18,607	184
AIR FILTER	3,797	+1%	AIR FILTER	3,835	38
CLUTCH	576	+3%	CLUTCH	594	18
BRAKE	3,981	+3%	BRAKE	4,099	118
total	38,130		total	38,601	471

Review

It should target higher sales in Oil/Air Filter, Clutch, Brake than guideline

Action Plan(PMS parts sales)

ISUZU

- It analyzed PMS parts sales cover ratio(visualization), then move to market analysis and plan activities phase

	Regulation	Replace	Approach	TM	Brake	UIO
N35	Not regulated annual MOT	6-7 year	Extended Warranty(4/5year,12.5/18.75 or 25k miles) Maintenance Service Contact Center(CARE)/Service Remind E-commerce(Independent Repair Facility) SNS/Sales Promotion(radiator, clutch, etc)	M	F: disc / R: drum	6,513
N75	Regulated(O license) safety event every 6 or 8 weeks	14 year	Maintenance Service Contact Center(CARE)/Service Remind	A	F: disc / R: disc	4,893

- Scheduled servicing
- Tailored to your needs
- Legal safety inspections including MOT's
- Maintenance
- Contract management options, including electronic inspection and service sheet
- **Wear item repairs**
- 24/7 Roadside assistance for full contract term

Silver(Service Select)
- Includes all features of standard warranty(bronze service)
- Scheduled servicing
- Tailored to your needs
- Legal safety inspections including MOT's

Bronze(Warranty)
- Full 36 months chassis cab warranty
- Driveline and non-driveline repair
- Fully comprehensive
- 24/7 Roadside assistance
- Protection against manufacturing defect

Action Plan(PMS parts sales)

ISUZU

Discussion Points to build action plan

We would like to have your recommendation which segment / item should focus on as the first step.
It supposes that it should be better considering sales promotion step by step. (achieve results in a short period)

- Target vehicle model and PMS parts categories
  - whole vehicles(including F series) / N35 / N55, N65, N75
    1) whole vehicle
    2) majority vehicle model (N series)
    3) regulated vehicle model (N55, N65, N75) *(even if ITUK has been taking actions to N35 like extended warranty, IRF)

- PMS parts(Oil/Fuel/Air filter, clutch, brake)
  1) whole items as Isuzu Guideline, or replace clutch by the other ITUK selecting active parts
  2) select at least one item like Oil filter to focus on how to increase cover ratio
     (ISZJ feels that Oil filter has large potential to increase.)

- What kind of approach is effective to increase the cover ratio?
  target customer, sales channel, parts discount, incentive to DLR(internal/external sales), service contract etc

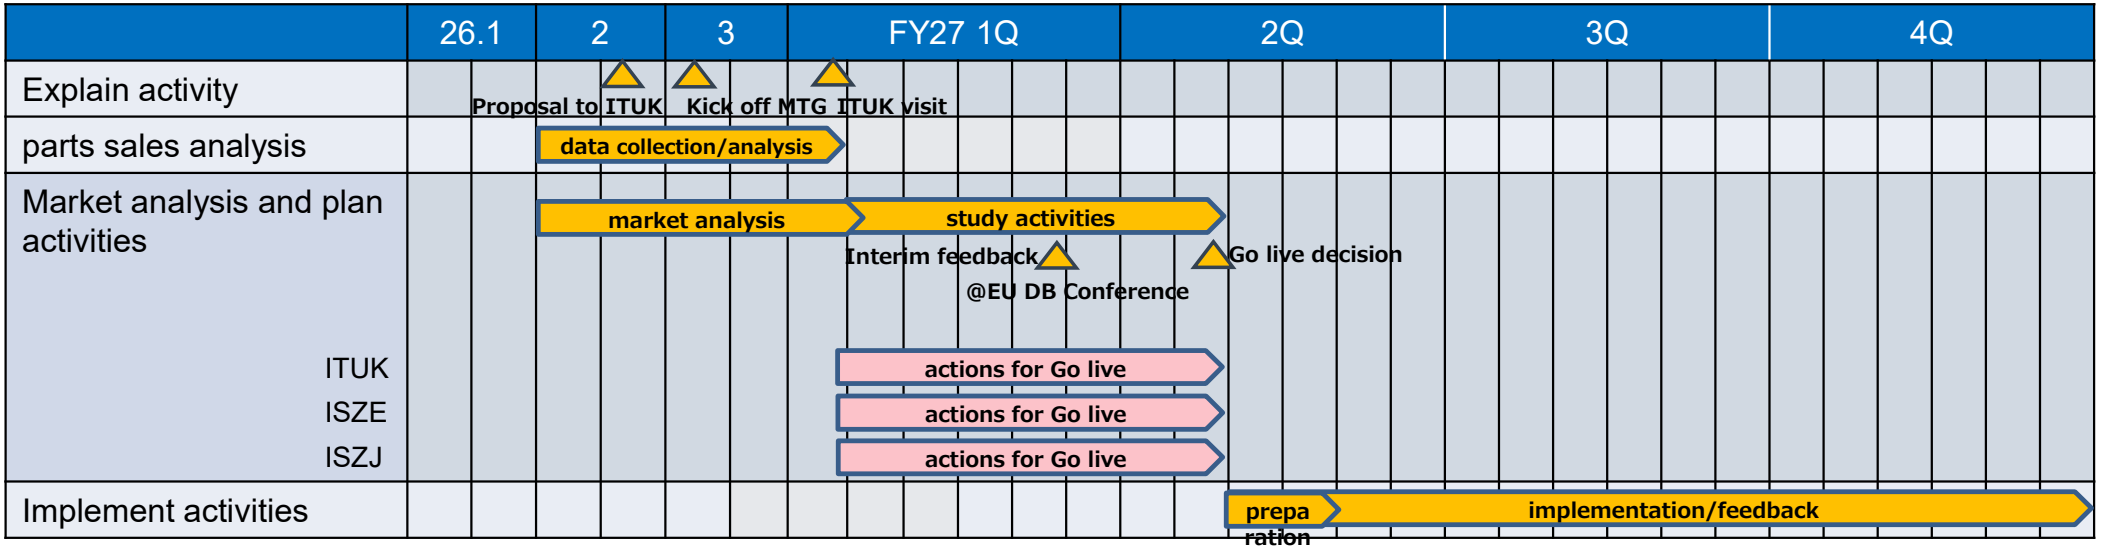

Action Plan(PMS parts sales)

Discussion Points to build action plan

We would like you to explain the sales actions/customer preference in the UK market once again?
Then we would like to discuss about the item/approach/sales increase target, and decide actions each entity

- Next actions for promotion activities
  1) ITUK:
  2) ISZE:
  3) ISZJ:

Tentative Schedule

Moving the World – for You
