Wrap up

1) ITUK/ISZE/ISZJ agree to promote PMS sales activities in the below schedule table

- 27th Apr: feedback MTG / Interim feedback (face to face) at EU Conference individual MTG

2) ISZJ still proposes the potential visualization approach by UIO cover ratio to see sales potential, but ITUK thinks that expertise is essential factor. Why do we use UIO cover ratio to see the situation overall and use your expertise to plan activities. -> agree combine approach

3) Next Action

- ITUK: study appropriate replacement frequency(filters/clutch/brake), target item and promotion
- ITUK/ISZE/ISZJ: feedback MTG on 27th Apr 2026; ITUK shows that study.
- After discussing the study, if it is activities required support from ISZE and ISZJ, consider it like SPA
