ISUZU UNIVERSE · DISTRIBUTOR REVIEW

Ireland

Prepared for a working conversation with Ireland, calendar 2025 against 2024 unless stated. Figures are Ireland's own; every comparison is against its own history or an anonymised network aggregate.

Parts billed by Isuzu to you

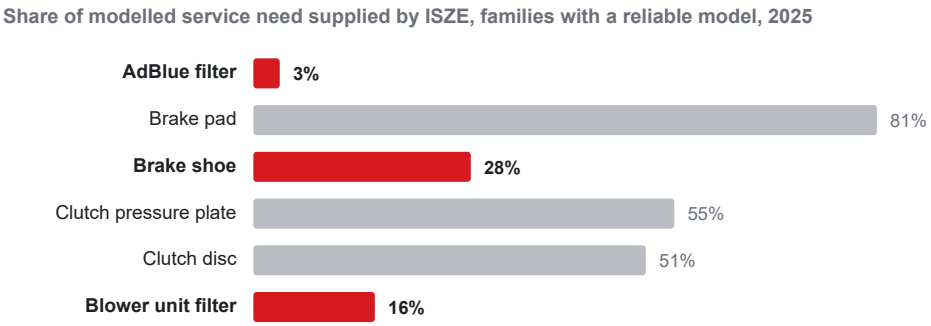

Parts billed, down 6.8% year on year. Source: ISZE billing records, calendar 2024 and 2025.

What we can see of your own dealer network

You sent us sales-to-dealer data for 2025 (19,244 lines), but **not broken down by named dealer** — it arrives as a network total, so we cannot see which of your dealers bought what. Across the network, 6 of 22 distributors sent some sales-to-dealer data for 2025; only one sent it by named dealer.

> This is the same blindness ISZE has about you that you may have about your own dealers: we see what is billed, not what is sold on or serviced.

Maintenance parts supplied against modelled need

Capped at 100% by construction; capture above 100% is withheld as unreliable, not shown as a figure. Source: maintenance-parts revenue-capture model, calendar 2025.

Weighted across the 9 reliable families, supply covers **37%** of modelled need.

5 families (Oil filter, Fuel filter, Air filter, Clutch kit, Brake rotor) are not shown: the model's expected demand is exceeded by what was actually supplied, which means the model is not reliable for those families in your market. We do not show a figure above 100%.

Genuine and Best Value

Share of maintenance-parts billing, Genuine (red) against Best Value (grey). Source: maintenance-parts pricing analysis, calendar 2024 and 2025.

In 2025, €177,442 Genuine and €62,078 Best Value (€240k together across 27 product lines with a reference price).

Spread of parts purchases across your dealers

We cannot show this: we do not hold named-dealer sales data for you for 2025 (see above). Without it, a ranked spread across your dealers cannot be built — showing one would mean estimating a per-dealer figure from a national total, which this review deliberately does not do.

Isuzu Dealer Standards

Your network is not separately represented in the Isuzu Dealer Standards network lists we hold, so no dealer count or score is shown here.

What would you need to judge each of your dealers?

Figures: ISZE parts billing, maintenance-parts pricing and revenue-capture records, sales-to-dealer submissions and the Isuzu Dealer Standards network lists, all as held by ISZE as of September 2026. Anchors: the ISZE data-quality sign-off, then the headline-metrics file, then the single facts sheet. Prepared for Ireland only; no other distributor is named on this page.
