Summary

Order intake is 3.146K€, which is 2.1% above target.
ISZE June sales reached 3.220K€. This is 4.35% over BP and 9.02% over last year's performance with 2,947K€.
in sales, UTI stands out, reaching 233.5% of BP (+€363K) and up 183% year-on-year (+€411K vs €224K), driven by their first SPA order being placed. ITUK shows 74.38% of BP on paper (-159K€), but this is a timing effect: 165K€ is sitting in WIP and will be invoiced on July 1st. Adding that back would put ITUK at roughly 605K€ against a 599K€ BP, so ITUK would normally have hit target. IUK (70.93% of BP) and UMI (58.62% of BP, -21K€ vs LY) also missed BP, as the halt of Shell deliveries are strongly affecting UMI's purchase performance.
